THE WORLD STRUKSDAY EVENING DECEMBER IS

Rigid Investigations Now of Vagrants' Previous Whereabouts.

Fruit of "Evening World" Dis-

good result has already followed THE EVENING WORLD'S exposure of the wholesale pauper-dumping traffic, of which New York city has been made the victim, in the inreased vigilance of the local officials and magistrates, particularly the police justices, in guarding against a continuance of the impositions.

As a rule, paupers shipped to this city and turned loose in the streets find their way peedly into the police courts. They want o be committed to the workhouse, the Charity Hospital or some other institution which affords food and shelter, and are shrewd enough to stick to the story that they are residents of the city. Police justices have scores of such applica-

tions daily. Formerly the justices have usually been disposed to lealency, and inquiries in regard to the previous record of the applicants have not been pushed very vigorously. Since Tak Evening World has opened the eyes of the public to the extent of the paper shipping trade the magistrates have teen more caulious. Every application for assistance is closely investigated, and in several instances within the last lew days imposition has been dejected.

An illustration was afforded at the Tombs yesterday. An old man who gave his name as Philip Milion was picked up in Elizabeth street half-starved and nearly frozen to doath. He was taken before Justice Mesmanon, whose suspictions were immediately aroused by the evident attempts of the prisoner to conceal something in regard to his nastlife. tions dally. Formerly the justices have usu-

other state's pauters here—we've pleaty of our own.

"These exposures will have the effect of causing magistrates to be especially careful about committing vagrants trought before them. So far as 1 am concerned, it has had this effect with me aiready. I not only question vagrants thoroughly, but also the officers who arraign them, and if there is any doubt about their eligibility to public support, I give them another chance."

Justice Voorbis, in the libriem Court, said he had read This Evening Wonlo's expose and considered it one of the most opportune that had eyer come to his attention.

"There is no doubt," said he, "that our city has been made the dumping ground of paupers and vagrants not only from Boston and the Kaw, but from other sections of the country as well.

"In view of This Evening Wonlo's enterprise in bringing this glaring evil to the affection of the authorities and the public, police justices, in my opinion, should exercise especial care to inquire litte interprise capecial care to inquire litte.
